

DEAL REPORT

November 2016

Renzenbrink & Partner advised Ergon Capital Partners regarding the acquisition of a majority stake in Deutsche Intensivpflege Holding (DIH)

The Belgian Private Equity Investor Ergon Capital Partners has acquired a majority stake in the Munich care provider DIH from a group of investors. The project has been financed by the Mezzanine Provider Ares. The two founding partners of DIH, Dr Kai Herold and Peter Boesensell, reinvested. The acquisition is subject to the approval by the anti-trust authorities.

DIH has ten operating units in Germany in which they treat about 400 patients intensively. The patients are looked after by qualified nursing personnel in their own homes as well as in more than 30 residential communities.

For Dr Ulf Renzenbrink it has been the second transaction for Ergon Capital Partners after he has advised them in the summer of 2014 on the acquisition of the cocktail bar franchise Sausalitos.

The team of Renzenbrink & Partner consisted of Dr Ulf Renzenbrink, Dr Andreas Stoll, Dr Niels Maier, Dr Maximilian Preisser (all Corporate/Private Equity) and Marc H. Kotyrba (Tax).
